Katharina Treptow

UI/UX Designer

I am currently developing my skills in UI Design and studying the fundamentals of UX Design processes while building up my portfolio and I am ready to take on my next challenge to gain more valuable work experience.

I am used to working very organized within tight schedules to meet goals and communicate with internal and external stakeholders. Moreover, due to my project coordinator background, I know how important empathy is in design. It helps me to solve user problems by designing mindful interfaces. I am hardworking and striving to become the best version of myself.
